

# Rescue your Budget!

## Model K-911

Professional VHF or UHF, Y 2013 FCC Compliant  
128 Channel Keypad Field Programmable Radio  
with 2/5 Tone Pager, wired/wireless cloning

The K-911 Radio was developed based on End Use Customer feedback, adding new functions to the baseline P-1000 series radio:

- Wired/Wireless Cloning
- 12 Battery AA Clamshell
- Remote Stun, Kill
- Call Phone Book with Sel-Call  
...and more

Fully configurable, the K-911 is an essential tool for any organization because of its unique versatility.

Whatever your need or profession, its MIL-SPEC standard structure meets the most demanding of applications and environments: Public Safety, First Response, Search and Rescue, Homeland Security, Logistics, and more.

With its many features it may be tailored to meet any customer need and provide reliable and clear communications in any environment or application.

**2 Year Warranty\***

# How Does Your Radio Compare?

## ADVANCED FEATURES at an unprecedented low cost:

Below:  
Shown with  
Infinity  
GPS LCD  
Speaker  
Microphone  
Accessory

- Back-lit Dot Matrix Display: Shows radio and channel status and allows for user interface with many of the radio features
- Front Keypad or Software Programmable
- Radio may be cloned or wirelessly or by cloning cable
- Embedded Radio Information/Multiple Password Protection: Protects privacy and prevents unauthorized cloning or reading of radio data or access to radio features and programming information
- Up to 16 2/5 tone calls may be decoded on a Single Channel: When a call is decoded and received, various actions such as a tone alert, answer back, radio stun (if the radio was stolen), LED indication may be activated. Even a missed call or call transfer (alert) is available.
- Flexible Scanning: 16 individual scan lists may be created. Auto Scan and Priority Scan features are standard. Call Back automatically switches the transceiver to the channel that has received a page or call rather than having the User manually select the channel that was active. If a call was not answered, the radio may rebroadcast the page or call to another user.
- English plain language audible channel annunciation
- Lone Worker/Man Down Alarm
- Premium Audio: 1 Watt output with audio expander circuit improves audio quality when used in narrow band mode.
- Voice Scrambler/Mid Level Encryption
- VOX Hands free transmission with earphone/speaker mic handset
- IP-54 Water resistant/Multi-pin accessory connector with auxiliary power output for devices such as Infinity GPS LCD Speaker Microphone
- 7 User Defined keys may be programmed: Example: Scan, PL Off, Monitor, Jump to Main Channel, Repeater Talk-around, etc.

## AVAILABLE ACCESSORIES

**MIC-5**  
Weatherproof  
Microphone

**BATT-CHG-2**  
6 Battery Bank Charger  
100-240 VAC Input  
(or 12 VDC w/ CHG-12)

**BATT-3**  
1700 mAH  
Li-Poly  
Battery

**CHG-3**  
Spare  
Charger
